

All products used are of the highest quality in order to achieve not only fantastic looking hands, nails, feet and faces, but also to ensure that the treatments last for the longest time possible.

Manicures use Pinnacle World Class Formula products to help you improve your nails, and many are also available to purchase, including PEAK Nail Strengthener.

Facials and Skincare ranges are from the Fleur de Jouvence (Flower of Youth) Aloe Vera range, and these too may be purchased.

Tips'n'Toes have been providing a professional friendly service for over 10 years. During this time we have given many talks, trainings and demonstrations. We are always looking for new challenges and have now added Handmade Jewellery to the ranges that are available to purchase.

We also provide a Gift Voucher Service.
